

Powerful Mobile Forms Platform

Create | Engage | Integrate | Analyze

FormsPro

Simplify Your Business Processes

At OmniByte, we help our customers effectively and efficiently manage complex business processes and required paperwork –all done digitally with **FormsPro**. No other mobile forms platform offers the depth and breadth of functionality and deployment options that we do.

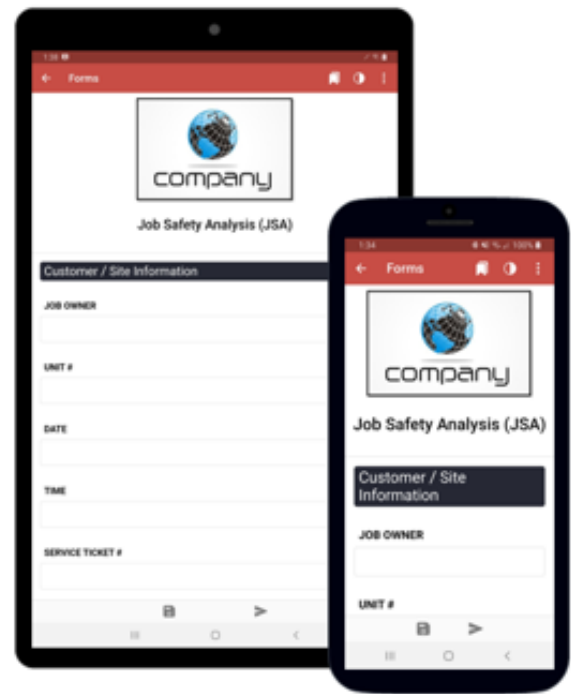

Create

A powerful form builder that actually lets *you* create smarter forms.

There is no need to beg for time from your IT department because, with FormsPro, *you* can easily use our simple drag-and-drop form designer to customize your *own* forms.

Our intuitive user interface lets you add, remove and re-order fields or re-use sections that you've used on other reports. Simplify complex business processes by configuring your forms to automatically enforce business logic & compliance: add formula fields, conditional logic, required fields, and automated input validation.

- **Conditional Logic:**
 - Incorporate conditional rules and logic to build dynamic forms.
- **Branding & Customization:**
 - Personalize your forms with robust customization and branding options.
- **Powerful Rules & Logic:**
 - Incorporate conditional rules and logic to build dynamic forms including Data Lookups, Conditional Logic Rules, Workflow Automation, Calculated Fields, Dynamic and Static Tables, URLs, and Locking Fields
- **Rich Data:**
 - Leverage your mobile device to capture extensive, rich data such as images, signatures, GPS stamp, barcodes, and more!

Engage

Let Techs focus on their *work*, not on paperwork

FormsPro mobile app is highly intuitive and easy to use, ensuring that your users will actually *use* it!

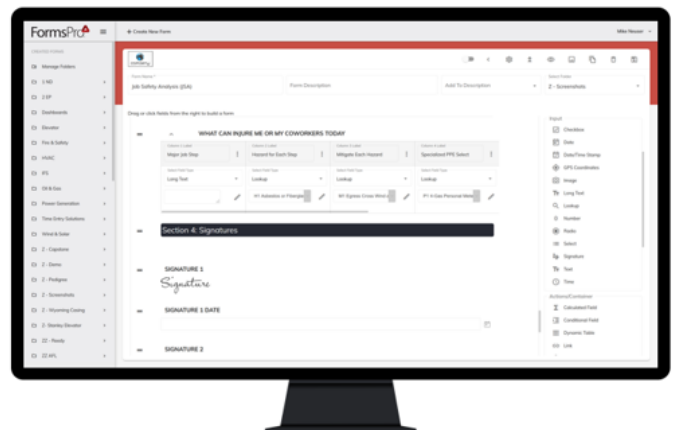

- **Required Fields:**
 - Unlike paper, your digitized forms can enforce entry of required fields, provide drop-down selections for faster completion and validation, making data collection in the field simpler..and more accurate.
- **Look & Feel:**
 - Create digitized forms that look and feel like your existing checklists, inspections, audits, and more, and you'll be able to increase user adoption.
- **Streamline Workflow:**
 - Automation of workflows prevents delays in reviews and approvals.
- **Work Anywhere:**
 - With FormsPro, you can work when you need to - even offline –as forms will automatically sync when an internet connection is reestablished.
- **Better Data:**
 - Digital forms eliminate the need for data re-entry and ensure that all data collected is legible and accurate

Integrate.

Real-time data integration eliminates data re-entry and reduces errors.

FormsPro streamlines data integration to your enterprise solutions. You can pull data directly from your business solutions (ERP, CRM, and more..) into FormsPro mobile app forms to provide technicians with required data and to reduce the time required to complete forms.

- **Real-time Data:**
 - Push data from forms that are completed in the field back to your home office through our business solutions, eliminating the need for data re-entry and wait times.
- **Simplify Integration:**
 - Integrate with business solutions using API services and deep-linking.
- **Admin Dashboard:**
 - Store, share, host, access, and manage your data sources for reporting, dashboards, and more.

Analyze.

Do more than just collect data. Gain deep insights into trends and make data-driven decisions.

FormsPro analytics lets you gain a deeper understanding of your business processes by making it easy to monitor data inputs, identify trends, share reports and gain real-time data inputs from the field.

- **Advanced Insights:**
 - Timely and reliable insights ensure you can make data-driven business decisions to increase revenue and improve productivity. FormsPro includes an out-of-the-box basic and advanced report builder to meet all of your complex reporting needs.
- **Auto-Syncing Reports:**
 - The Basic Report is always up to date when any changes are made to a form.
- **Targeted Reports:**
 - Multiple reports for each form can be created with advanced formatting for customers, external team members, executives and more.
